

 PASSIVE INCOME

The Hands-Off Passive Income Playbook

Set it once. Get paid month after month. Without the portfolio babysitting.

Imagine waking up to money in your account—not from active trading, not from hustling, but from systems you set up once and let run. This playbook is your simple operating system to passive income streams that work in the background for you. No complex strategies, no constant monitoring, just smart automation and proven frameworks that everyday investors and busy professionals use to build real cash flow. Including us!

INVEST ONCE. EARN FOREVER.

Your Complete Passive Income Blueprint

01

The 5-Step Setup

Launch your first stream this week in just 15 minutes

02

The Payout Rules

Three simple paths to manage incoming cash flow

03

Monthly Routine

Five minutes per month to stay on track

04

Pick Your Stream

Three proven lanes to choose from

05

One-Week Activation

Your day-by-day plan to get started

Step 1: The 5-Step Setup (Copy This)

Goal: One stream running this week | **Time:** Approximately 15 minutes to set up

- Choose Your Stream**
Start with ONE. Don't overwhelm yourself trying to launch multiple streams at once. Pick the lane that resonates most with your goals and comfort level.
- Allocate Starter Amount**
Start small, scale later. There's no pressure to go big on day one. Even modest amounts can generate cash flow consistency.
- Automate Everything**
Set up reinvestment, recurring additions, or scheduled deposits. This is where the "hands-off" magic happens—let technology do the heavy lifting.
- Log It Once**
Record your stream details so you can track payouts calmly without scrambling through accounts or email confirmations later.
- Set Reminders**
Schedule monthly check-ins and stop "babysitting" your investments. Trust the system you've built.

Step 2: The Payout Rules

When money hits your account, choose one of these three strategic paths. Each serves a different purpose, and you can switch between them as your needs evolve.

A) Pay Yourself	B) Compound	C) Split It (50/50)
Use payouts for bills, lifestyle upgrades, or to reduce reliance on your paycheck. This path provides immediate financial relief.	Reinvest 100% of payouts to grow the stream faster and generate bigger payouts later. Patience pays exponentially.	Take some now, reinvest some. This balanced approach keeps motivation high while building long-term momentum.
Best For: Cash Flow	Best For: Future Growth	Best For: Balance

Step 3: The Minutes-Per-Month Routine

Monthly 5-Minute Check

This simple routine keeps you informed without becoming obsessive. Set a calendar reminder for the same day each month.

- **Did the payout post?** Confirm your distribution, interest, or deposit arrived as expected.
- **Did automation run?** Verify reinvestments or recurring additions processed correctly.
- **Is anything "off"?** Look for missed payouts or unexpected alerts that need attention.
- Use automated Portfolio Trackers (we'll share some in our Live Workshop coming up)

What to IGNORE

Resist these common distractions that derail passive investors:

- Daily price movements and market volatility
- Sensational news headlines and doom predictions
- "Hot tip" rabbit holes from social media
- Constant tweaking and over-optimization

The beauty of passive income is in the *consistency*, not the constant adjustment.

Step 4: Pick Your First Stream (Start Here)

Choose the lane that aligns best with your risk tolerance, interests, and financial goals. You can always add more streams later, but starting with one ensures you actually follow through.

Company-Linked Cash Flow Passive cash flow tied to major companies or baskets of market leaders. Generate regular income without complex options trading or active management. Best for: Those who want exposure to established businesses with predictable distributions. We'll share some favorites in the live workshop coming up (be sure to register) - these can be set-up in seconds.	Real Estate Cash Flow Fractional or turnkey income streams that put real estate to work for you. Earn rental income or appreciation without tenants, maintenance calls, or property management headaches. Best for: Those seeking tangible asset backing with monthly or quarterly cash flow. During our live workshop, we'll show you ways to own property in minutes - with zero headaches.	Stability / "Insurance" Layer Tools designed to smooth the ride and protect your downside. Buffered approaches, or hedged strategies that prioritize capital preservation. Best for: Balanced investors seeking upside with downside insurance. Imagine a smoother ride, in strong markets - and downside protection in weak markets on autopilot. See it in the live workshop.

Step 5: The One-Week Activation Plan

Follow this day-by-day roadmap to go from reading about passive income to actually generating it. By the end of the week, you'll have at least one stream running and the confidence to add more.

- Day 1: Turn on Stream #1**
Choose your lane, open the account, and fund your first stream. Complete all setup steps and enable automation.
- Day 2-3: Turn on Stream #2 (Optional)**
If you're feeling confident, add a second stream in a different lane for diversification. This step is optional—don't rush it.
- Day 4: Confirm Automation + Log It**
Double-check that recurring deposits and reinvestment settings are active. Record everything in your tracking system.
- Day 5-7: Monthly Check-In + Decide Payout Rule**
Schedule your first monthly review. Choose which payout rule (Pay Yourself, Compound, or Split) you'll follow for the next 90 days.

Join the Live Workshop: Passive Income Without the Portfolio Babysitting
Wednesday, January 21st @ 12pm Eastern
See real examples and fill in your first 1-2 passive income streams live.

<https://www.netpicks.com/passivestreams>

In the live class, you'll see the setup done start-to-finish and get the **Full 5-Day Sprint Tools** including tracker spreadsheets, detailed checklists, and the fastest income stream recipes.
